

TalEval

Dental Hygiene Program

Reports as Exhibits

To Demonstrate Compliance With CODA Standards

Standard 1-1

Planning and Assessment

1-1 The program must demonstrate its effectiveness using a formal and ongoing planning and assessment process that is systematically documented by:

- a) developing a plan addressing teaching, patient care, research and service which are consistent with the goals of the sponsoring institution and appropriate to dental hygiene education.
- b) implementing the plan;
- c) assessing the outcomes, including measures of student achievement;
- d) using the results for program improvement

Standard 2-12

2-12 Graduates must be competent in providing dental hygiene care for the child, adolescent, adult, geriatric, and special needs patient populations.

Intent: An appropriate patient pool should be available to provide a wide scope of patient experiences that include patients whose medical, physical, psychological, developmental, intellectual or social conditions may make it necessary to modify procedures in order to provide dental hygiene treatment for that individual.

Student experiences should be evaluated for competency and monitored to ensure equal opportunities for each enrolled student.

Clinical instruction and experiences should include the dental hygiene process of care compatible with each of these patient populations.

Standard 2-12 Continued

Examples of evidence to demonstrate compliance may include:

- program clinical and radiographic experiences, direct and non-direct patient contact assignments, and off-site enrichments experiences.
- patient tracking data for enrolled and past students
- policies regarding selection of patients and assignment of procedures
- student clinical evaluation mechanism demonstrating student competence in clinical skills, communication and practice management

When CODA site team asks:

How does TalEval deem students competent?

Not by the TalEval Numerical Grade, but by formative and summative evaluation of all patients treated

It tracks critical errors and when a student treats at least one of every patient type with **No Critical Errors** they are deemed competent

Patient Type Tracking

01/01/2018 - 05/31/2019

Clinic All

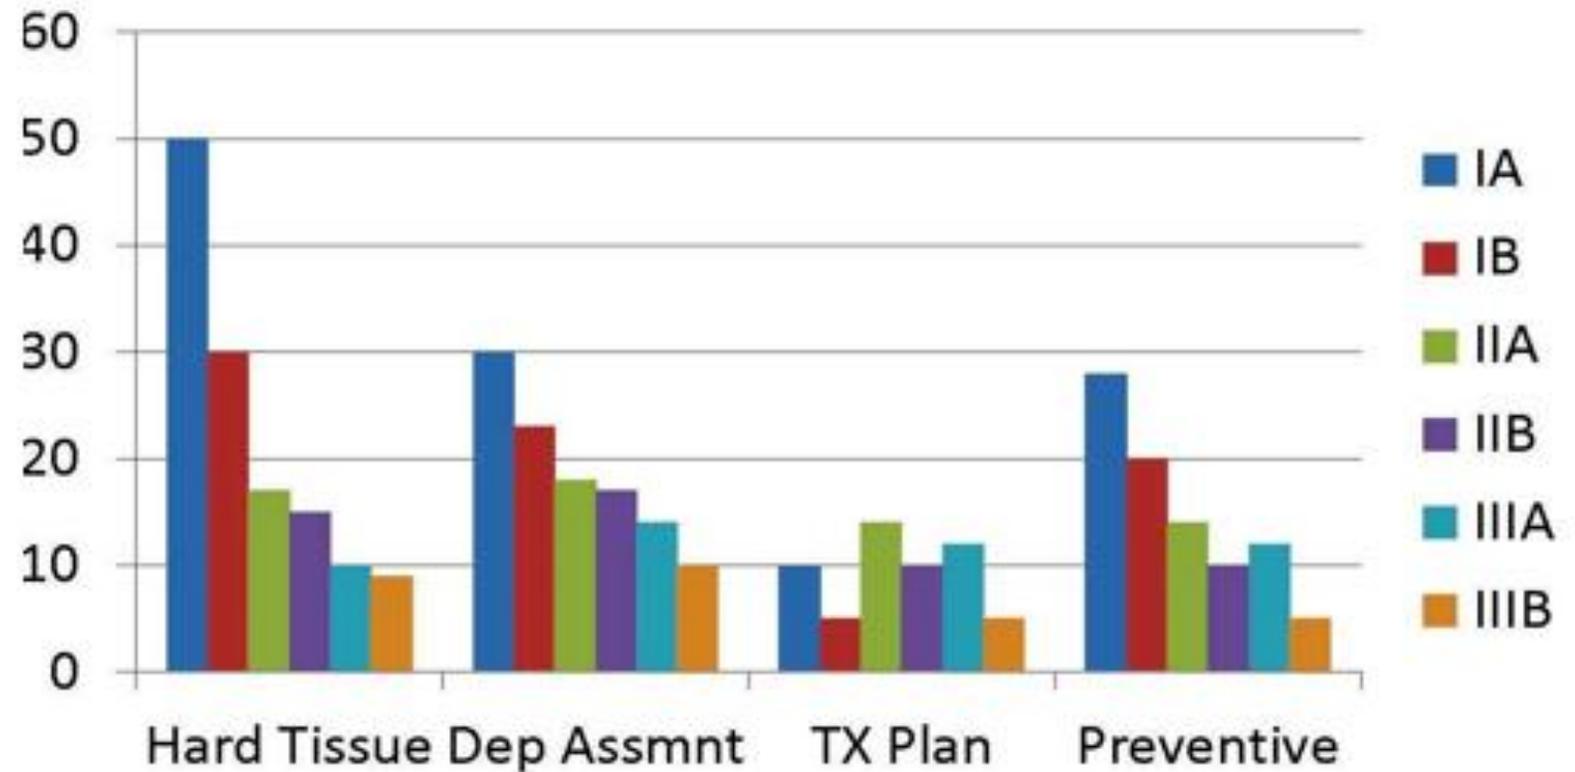

No Critical Errors, All Patients

Standard 2-12

Progression of Skill Development

Ethics/Professionalism

Standard 2-20 Graduates must be competent in applying legal and regulatory concepts to the provision and/or support of oral health care services.

Intent: Dental hygienists should understand the laws which govern the practice of the dental profession. Graduates should know how to access licensure requirements, rules and regulations, and state practice acts for guidance in judgment and action.

Examples of evidence to demonstrate compliance may include:

- evaluation mechanisms designed to monitor knowledge and performance concerning legal and regulatory concepts
- outcomes assessment mechanisms

Standard 2-24 d

2-24 The dental hygiene program must have a formal, written curriculum management plan, which includes:

- a) an ongoing curriculum review and evaluation process with input from faculty, students, administration and other appropriate sources;
- b) evaluation of the effectiveness of all courses as they support the program's goals and competencies;
- c) a defined mechanism for coordinating instruction among dental hygiene program faculty.
- d) a defined mechanism to calibrate dental hygiene faculty for student clinical evaluation.

Standard 2-24 Continued

To assure the incorporation of emerging information and achievement of appropriate sequencing, the elimination of unwarranted repetition, and the attainment of student competence, a formal curriculum review process should be conducted on an ongoing and regular basis. Periodic workshops and in-service sessions should be held for the dissemination of curriculum information and modifications.

Examples of evidence to demonstrate compliance may include:

- competencies documentation demonstrating relationship of course content to defined competencies of the program
- documentation of ongoing curriculum review and evaluation
- minutes of meetings documenting curriculum review and evaluation
- student evaluation of instruction
- curriculum management plan
- documentation of calibration exercises

Standard 3-9

3-9 A defined faculty evaluation process must exist that ensures objective measurement of the performance of each faculty member.

Intent: An objective evaluation system including student, administration and peer evaluation can identify strengths and weaknesses for each faculty member (to include those at distance sites) including the program administrator. The results of evaluations should be communicated to faculty members on a regular basis to ensure continued improvement.

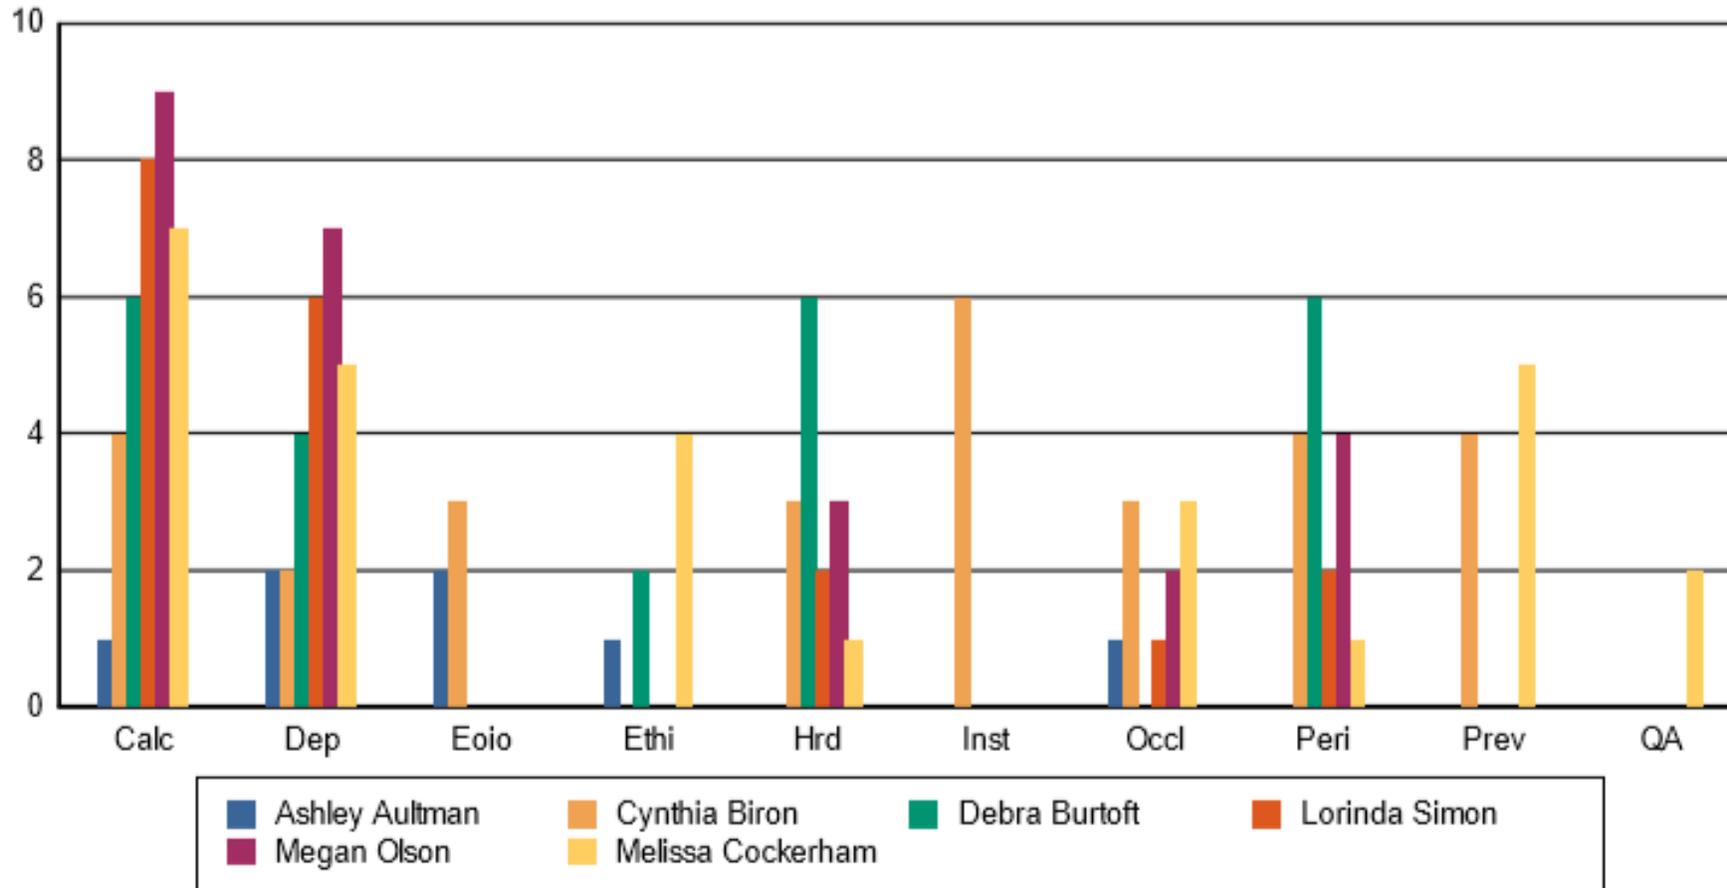

Examples of evidence to demonstrate compliance may include:

- sample evaluation mechanisms addressing teaching, patient care, research, scholarship and service
- faculty evaluation policy, procedures and mechanisms

3-10 Opportunities for promotion, tenure, and development must be the same

Standard 3-9 and 2-24d

Instructor Calibration Graph

Standard 6-2

6-2 The program must have a formal written patient care quality assurance plan that includes:

- a) standards of care that are patient-centered, focused on comprehensive care, and written in a format that facilitates assessment with measurable criteria;
- b) an ongoing review of a representative sample of patients and patient records to assess the appropriateness, necessity and quality of the care provided;
- c) mechanisms to determine the cause of treatment deficiencies;
- d) patient review policies, procedure, outcomes and corrective measures.

Standard 6-3

6-3 The use of quantitative criteria for student advancement and graduation **must not** compromise the delivery of comprehensive dental hygiene patient care.

Intent: The need for students to satisfactorily complete specific clinical requirements prior to advancement and graduation should not adversely affect the health and care of patients.

Examples of evidence to demonstrate compliance may include:

- patient bill of rights
- documentation that patients are informed of their rights
- continuing care (recall) referral policies and procedures

In TalEval, every patient experience counts toward the graduation criteria for competency

Standard 6-5

6-5 All students, faculty and support staff involved with the direct provision of patient care must be continuously recognized/certified in basic life support procedures, including healthcare provider cardiopulmonary resuscitation with an Automated External Defibrillator (AED).
Intent: The need for students to be able to provide basic life support procedures is essential in the delivery of health care.

Examples of evidence to demonstrate compliance may include:

- continuous recognition records of students, faculty and support staff involved in the direct provision of patient care
- exemption documentation for anyone who is medically or physically unable to perform such services

The screenshot shows a web-based 'Grade Entry' form. At the top, the title 'Grade Entry' is circled in red, along with two lines of text: 'CPR expired on 5/5/2019' and 'CPR expired on 5/5/2019'. Below this, the form includes a 'Student' dropdown menu with 'Doe, Jane' selected, an 'Include Inactive Students' checkbox, and an 'Edit Existing Grade' dropdown. The 'Date' field is set to '10/13/2019'. There are fields for 'Select a Patient*', 'Clinic*' (set to 'NON GRADED'), and 'Instructor*'. The 'Treatment Phase*' is set to '-- Select One --'. The 'Special Needs' section has radio buttons for 'No' (selected) and 'Yes'. The 'Gingival Perio Disease' is set to '--Select--'. The 'AAP/EFP: Stage' has radio buttons for 'None' (selected), 'I', 'II', 'III', and 'IV'. The 'Grade' has radio buttons for 'None' (selected), 'A', 'B', and 'C'. On the right, there is a 'Debridement Skill Level' section with radio buttons for 'N/A' (selected) and '0', 'I', 'II', 'III', 'IV' for both 'Calculus' and 'Perio'. At the bottom right, there are 'Critical Error' and 'Extra Credit' fields, and 'Auto Calc' and 'Total' buttons. A 'Continue' button is at the bottom center.

Standard 6-6

6-6 The program's policies must ensure that the confidentiality of information pertaining to the health status of each individual patient is strictly maintained.

Intent: The program should have a system in place to ensure patient confidentiality. The use of student employees as secretarial staff does not preclude the essential need for patient confidentiality.
